

cactus telecom

# mobile telephone services

---

cactus telecom provides mobile services to the business and corporate sector. we're independent of any network or service provider so we can give you the advice you need.

## talk...

your business isn't a copy of the one next door and neither should your tariff be. we'll design a tariff for *you*.

## type...

email and data transfer are a fact of life these days. we can make it faster and easier for you to keep up with your business wherever you are.

## think...

make mobile work for you, not the other way around. talk to us about your business and we'll help you get the edge.

# make your phone work for you

## voice...

cactus telecom provides mobile telephones on all four major mobile networks. we supply businesses of all sizes with fully managed mobile

services. as we're not tied to any network or service provider we can ensure that you get what you need, not what someone wants to sell you.

## data...

we understand that you need to keep on top of your business. this may mean sending emails when you're out, updating your colleagues' diaries or

accessing your office systems remotely. that's why our suite of mobile data products is among the most comprehensive available.

## integration...

you may be surprised to learn how far you can integrate your office and mobile telephony and how much this integration can save you. with a little

planning you can really improve your company communications. we'll tell you how.

we can supply all mobile networks, all handset manufacturers and all types of accessories.

our experienced consultants recognise what it takes to make your communications simple and effective.

call us on 08708 55 40 40 for a no obligation consultation.
